Dear Sir, Madam

I am opposed to Court Rule No. 2003-47. First, the Constitution states that there is a separation of powers. Judges interpret laws, judges do not make laws!

Second, if this Court Rule would deprive me of my Constitutional right to have a jury hear my case.

Third, a lady can spill coffee on herself, claimed that a hot drink was too hot and win a million dollar lawsuit. I did not know of any hazards associated with asbestos, but it is my understanding that the Government and Big Business did know about the hazards and asbestosis at least ten years before it became widely known.

Because of these three main reasons and others not mentioned here, I am against Court Rule No. 2003-47.

Sincerely:

Ronald A Brzezinski
